

QING LI (VINCENT) | RESUME

- » **Technical:** SQL, Python, Excel VBA, Power BI, Data Modelling
- » **Analysis:** Financial Controlling, Business Analytics, Forecasting
- » **Business:** Process Optimization, Stakeholder Management

» Summary

As a Data Analyst/BI Developer with 13+ years in finance, I leverage Excel VBA, Power BI and Python for ETL processes from SAP HANA/BW, SharePoint, etc. I have developed OKR dashboards to enhance financial insights, optimize Power BI via SQL, and automate processes for the global finance team.

» Experience

- | | | |
|---------------|-------------------|---------------|
| 2024/08 - Now | BI Analyst | IVC Evidensia |
|---------------|-------------------|---------------|
-
- » Analyzed large datasets in Azure Database using SQL to support the ERP migration (OpenAccounts - Oracle), ensuring data integrity and data quality.
 - » Validated data consistency between legacy and new ERP systems.

Qing Li (Vincent) · BI Analyst · Stockholm, Sweden ·
vincentthelibra@gmail.com · +46 72 593-1296

- » Developed and optimized Power BI reports for enhanced performance using different technical tools such as Tabular Editor, DAX studio and ALM Toolkit.

2019/03 - 2024/03 **Data Analyst / BI Developer**

Ericsson AB

-
- » Developed global OKR dashboards for financial trend analysis and performance measurement.
 - » Conducted ETL for finance data from various sources like SAP HANA/BW Data Warehouse, SharePoint, and various APIs.
 - » Ensured data accuracy and data cleanliness through validation and cleansing.
 - » Optimized dataflows using Power BI and Python, scheduled refreshes via Power Automate to maintain data integrity.
 - » Enhanced Power BI performance with SQL, refactored Power Query/DAX, and performed data modeling.
 - » Developed automation solutions using Python/VBA to improve data pipelining.
 - » Collaborated with stakeholders to define reporting needs and conduct requirements gathering.

2010/04 - 2019/03 **Financial Analyst Supply**

Ericsson
Nanjing

-
- » Conducted forecasting and calculated hourly rates for financial analysis and strategic pricing decisions.
 - » Analyzed product costs and cost variances to identify areas for potential efficiency gains.
 - » Oversaw financial master data for accuracy, ensuring consistency and reliability in reporting and analysis, maintaining data quality.
 - » Calculated and analyzed transfer prices for informed decision-making.
